

KADİR GÖNEN

SOFTWARE DEVELOPER

Regarding my education background and personal skills, I would like you to evaluate my attached CV for a Golang Developer career opportunity. Especially, I believe that I can add maximum value in python and C# programming languages. I graduated from Sakarya University, Electrical and Electronics Engineering Department. During my education, I have improved my know-how in software courses. The internships and projects have improved my teamwork and project management skills. Moreover, I can speak fluent English. Especially, my skills at problem solving, crisis management and long-term thinking and empathy in my social relations help me in my career life. I am continuing go programming language (docker, kubernetes, AWS and microservice technologies).
